

Technical Information  
**Alberger® Fine Flake Prepared Salt**

**DESCRIPTION:**

Alberger® Fine Flake Prepared Salt is a high purity, food grade, natural crystalline, fine flake sodium chloride manufactured under stringent process control procedures by Cargill's exclusive ALBERGER® process. This salt is obtained from underground deposits by deep well solution mining. Brine from wells is chemically treated to remove most calcium and magnesium impurities, and subsequently evaporated under normal atmospheric conditions to produce a natural flake salt with unique physical characteristics.

**ORGANOLEPTIC PROPERTIES:**

Alberger® Fine Flake Prepared Salt has a characteristic saline taste, and may exhibit a slight halogen odor upon warming.

**COMPLIANCE:**

Alberger® Fine Flake Prepared Salt is of food grade quality, complying fully with the standards for Sodium Chloride as set forth in the Food Chemicals Codex. It is approved for direct use in meat and poultry products by the U.S. Department of Agriculture Food Safety and Inspection Service.

**ADDITIVES:**

Alberger® Fine Flake Prepared Salt contains the food grade anticaking/ free-flowing agent, Tricalcium Phosphate, which is added in accordance with 21CFR 182.1217. When this salt is incorporated into a food product, the additive is considered incidental, non-functional and exempt from label declaration under 21CFR 101.100(a)(3).

**APPLICATIONS:**

Alberger® Fine Flake Prepared Salt is recommended for use in topping potato chips, corn chips, corn curls, puffed snacks, popcorn, and nuts, and as an ingredient in seasoning blends, prepared soup and sauce mixes, candy, and cookies.

**PACKAGING AND STORAGE:**

Alberger® Fine Flake Prepared Salt is available in 80lb. multiwall kraft containers, which incorporate polyethylene film liners for added moisture protection. To improve caking resistance, the product should be stored in a dry, covered area at humidity below 75%.

**METHODS OF ANALYSIS:**

Methods of analysis are taken from ASTM E 534-98, Cargill and the Food Chemicals Codex 5<sup>th</sup> Edition.

**OTHER PROPERTIES:**

Alberger® Fine Flake Prepared Salt contains no known allergens, and exhibits virtually no microbiological activity.

**CHEMICAL ANALYSIS:**

Component	Units	Typical	Specification
Sodium Chloride (dry) <sup>1,2</sup>	%	99.85	99.80 min.
